PROFESSIONAL SUMMARY

Frontend-focused Full Stack Developer with 1+ years of hands-on experience building responsive, production-grade web applications. Started as a Frontend Developer in a fintech environment (React.js, JavaScript ES6+, Bootstrap) building merchant-facing payment interfaces and have since grown into a Full Stack role delivering a MERN-stack CRM and LMS platform (React.js, Node.js, MongoDB, Tailwind CSS) covering lead management, academics, fees, EMI, and alumni workflows. Comfortable owning features end-to-end — from UI/UX and component architecture to REST APIs and database design. Currently expanding into enterprise backend development with Java and Spring Boot.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Tailwind CSS

Backend & Full Stack: Node.js, Express.js, REST APIs, MongoDB, MySQL; learning Java & Spring Boot

Tools & Practices: Git, GitHub, Vercel, CloudPanel (VPS deployment), Agile/Scrum, Responsive Design, Component-Based Architecture, React Hooks, DOM Manipulation, Debugging

Soft Skills: Openness to Learning, Ownership & Responsibility, Teamwork & Collaboration

PROFESSIONAL EXPERIENCE

Full Stack Developer | iMED Academy *May 2026 – Present*

Kochi, India — Edtech

- Building a full-featured CRM and Learning Management System (LMS) for an ed-tech academy using the MERN stack (MongoDB, Express.js, React.js, Node.js) with Tailwind CSS.
- Developed core CRM modules including Lead Management, Academics, Fee Management, EMI Tracking, and Alumni Management, streamlining administrative workflows for the academy.
- Built a student-facing LMS module enabling course access and academic progress tracking.
- Designed and implemented RESTful APIs and MongoDB schemas to support CRM/LMS features, including authentication and role-based access control.
- Developed responsive, mobile-first UI components with React.js and Tailwind CSS, ensuring a consistent experience across devices.
- Deploying and managing the application on a self-hosted VPS using CloudPanel, handling server setup, domain/SSL configuration, and release deployments.
- Collaborating across the stack — from database design to UI implementation and deployment — while strengthening backend skills with Java and Spring Boot.

Frontend Developer | Rupenet Payments *Oct 2025 – Apr 2026*

Chennai, India — Fintech / Digital Payments

- Developed and maintained responsive front-end interfaces for Rupenet's merchant payment platform using React.js, JavaScript (ES6+), and Bootstrap, supporting a network of 30,000+ merchants.
- Built reusable UI components for merchant onboarding, transaction dashboards, and payment status tracking, improving consistency and reducing development time across the platform.
- Integrated REST APIs to fetch and display real-time transaction and payment data, ensuring accurate and timely information for end users.
- Ensured cross-browser and mobile compatibility so merchants can reliably access the platform across varied devices and network conditions.
- Collaborated with backend developers, designers, and QA within an agile workflow to translate UI/UX designs into clean, production-ready code.

Frontend Development Intern | Besant Technologies *Jan 2025 – Apr 2025*

- Developed responsive web pages using HTML5, CSS3, JavaScript, Bootstrap, and React.js.
- Implemented reusable components and managed application state using React.js features like hooks and props.
- Designed and styled user interfaces with Bootstrap for mobile-first, cross-browser compatibility.

ADDITIONAL EXPERIENCE

Al Haya Tours & Travels | Live Demo

- Designed and developed a responsive business website for a Kochi-based travel company offering Kerala cab rentals, Tempo Traveler & Bharat Benz bus booking, airport transfers, outstation trips, and tour packages.
- Built dedicated service pages covering cab booking, tempo traveler hire, bus booking, tour packages, flights, visa, and hotel booking.
- Implemented enquiry/booking forms to capture customer leads and simplify the booking process.
- Delivered a mobile-first, cross-browser compatible layout tailored for on-the-go travel bookings.

BeyondBox Gifting | Live Demo

- Developed a responsive website for a Chennai-based end-to-end corporate and premium gifting platform serving businesses across India and internationally.
- Built a product catalog showcasing drinkware, apparel, tech organizers, travel backpacks, desk nameplates, and gourmet items, supporting both pre-curated and fully customizable gift boxes.
- Implemented the discover → curate → personalize → order flow, letting corporate clients select and brand gifts with logos, colors, and personalized messages.
- Ensured a responsive, cross-device UI for corporate clients browsing catalogs and placing bulk gifting orders.
